

Pedi-Fit™

NON-INVASIVE PATIENT INTERFACE

Protector of children until they are strong enough to take care of themselves.

Right-Fit Pediatric Patients with Excellent Seal and Comfort

The Artemis Pedi-Fit Non-Invasive Pediatric Nasal and Full-Face Masks were specifically designed to right-fit respiratory patients in the Pediatric Intensive Care Unit (PICU). The soft, molded silicone material and flexible forehead pad ensure excellent seal and patient comfort during CPAP and VPAP therapy.

Pedi-Fit Features

- Molded silicone mask cushion provides excellent seal and comfort
- Unique clip pivots the mask to conform to the patient's nose, preventing air from leaking into the patient's eyes
- Flexible, one-piece forehead pad evenly conforms to the forehead for stability
- Quiet air vent minimizes noises and enables efficient CO₂ washout
- Each design is available in four sizes enabling healthcare providers to right-fit each patient

Item ID	Description	U/M
ART00PF	Pedi-Fit Nasal Mask, Small (21 mm x 18.6 mm)	Each
ART0PF	Pedi-Fit Nasal Mask, Medium (22 mm x 24.10 mm)	Each
